

WALLBEDS COMPANY

32 YEARS OF INNOVATION

DESIGNED FOR LIVING

CLASSIC & MODERN CONVERGE

At Wallbeds Company, we make space saving furniture that is relevant for the way we live now.

Timeless Design

An updated Murphy bed from the past, designed to be both beautiful and purposeful.

Livable & Relaxed

inviting clean designs that work well in any home.

We craft 100% of our products in our family owned North America workshop. With over 40,000 beds in use every day in timeshares, college housing, fire stations, sleep clinics and homes like yours, they are proven designs for use by generations to come .

RYLAND

The RYLAND collection is crafted with no return top molding so that the side storage components can fit flush next to each other.

FOLD DOWN DESK desktop measures 48" long. Is secured in the closed position with a button lock. Includes 3 adjustable shelves.

Under the desk is a cupboard with 1 adjustable shelf.

When you need to access the bed simply fold it back up and lock it closed with the push button lock.

RYLAND *is crafted with no return molding so that the side storage components can fit flush next to each other.*

IDEAL WORK SPACE

The RYLAND is available in both the Queen and Full Size. Large desktop includes the support desk base with a lateral file drawer, medium drawer and a pencil drawer. The desktop slides into the storage cabinet with the two lower doors.

AS SHOWN: RV46, RDFL, RLD, RPCF in the caramel finish

Nightstand storage cabinet comes with a pull out tray, two drawers, and three adjustable shelves.

DALE *The Dale was designed to complement the trends in today's home design. We craft the Dale with individual planks of wood, randomly selected, to make each piece unique.*

AS SHOWN: DV50, ANQS, ADQL, ALD in honey maple

BRONZE

NICKEL

Decorated with large European bar handles.

Your choice of rubbed bronze or brushed nickel.

WESTCOTT
MADE IN THE USA

The DALE is a FLIP UP panel foot style Murphy Bed. It features a latch at the foot of the mattress platform that connects with the bed top to secure the bed closed.

You can not open our panel foot beds by simply pulling on the handles. When you lift the panel foot you unlatch the bed so you can open it.

TO OPEN; lift the panel foot located towards the top of the bed, and grab a hold of the bed and pull. Once the bed is partially opened, the pistons will do the work in gently lowering the bed to the floor. The panel foot becomes the support for the mattress platform.

The variation of hardwood species highlights the wood grain effects of real wood furniture. The DALE collection is crafted with no return molding so that the side cabinet components can fit flush next to each other.

WESTCOTT

WALLBED CONSTRUCTION- PANEL FOOT

PANEL FOOT DESIGN- The panel foot supports the mattress platform when the bed is open. Table beds have a safety latch when the beds are closed to always keep your bed securely closed and latched when it's in the upright position. At the foot of the mattress platform is a latch that catches on a block in the bed top. When you lift the panel foot you release the latch. Under the lifted panel foot is a hand hole. Grab a hold of the bed and pull. Once the bed is partially opened the piston lift system does the work to slowly lower the bed to the floor.

SAFETY CABLE Our beds come with the added feature of a safety cable, from the cabinet top into your wall stud, so you know your bed is secure.

COMPLETE STRUCTURAL BOX TOP reinforced with steel brackets for additional strength in this

most critical area. Your bed is attached into 3 wall studs through the back of the top.

MATTRESS BOX SURROUND- The mattress sits inside a box surround so it provides a place to tuck in your bedding. Your bed can be made and ready to use and your bedding doesn't slide off inside. Accepts up to a 12" thick mattress.

PROVEN SAFE PISTON LIFT SYSTEM-assists in lowering and closing your bed.

FINISHED CABINET BASE-Complete structural cabinet base foundation. Keeps bed squarely installed and stops dirt and items from getting underneath.

REAL WOOD- Made from hardwood veneers and solid hardwood trims.

THROUGH BOLT SYSTEM- makes our beds the easiest in the industry to install. Table beds can be moved when you change homes.

1" x 6" BASEBOARD NOTCH- so your bed installs flush against your wall.

QUALITY MADE HARDWARE- from die cast metal.

Attractive wrapped crown molded top.

Decorative Handles are 100% Die-Cast Zinc Metal, not plastic. Available in many styles and finishes to match your décor.

Bed assembles with 14 bolts and can be taken apart and re-assembled hundreds of times. (No CAM locks.)

1" x 6" baseboard notch on all cabinet backs to allow your set to install flush up against the wall.

Finished baseboard prevents items, dust and dirt from getting trapped underneath.

Includes a flip over metal bar leg to support the bed when it is open.

Includes a finished headboard.

Accepts a standard queen size mattress up to 12" thick (not included.)

When open the bed measures 87" out from the wall.

Proven safe piston lift system -no springs!

The mattress sits inside a wooden box surround giving you a place to tuck in your bedding. When you close the bed the bedding stays put and doesn't fall down behind.

Always made in the U.S.A.
Since 1990, manufactured in California under the strictest environmental laws in the country.

TO OPEN: By simply grasping the center handles, use your body weight to help open the bed. Once partially opened, flip over the metal bar leg and let the bed descend down the rest of the way to the floor.
TO CLOSE: Lift the bed off the floor to flip over the metal bar leg before closing the bed.
